

Good Environmental Choice

Origin certified electricity

Good Environmental Choice

It is hereby declared that the electricity consumed by

ODERLAND Webbhotell AB

at the following facility

All facilities

meets the Swedish Society for Nature Conservation's criteria for Good Environmental Choice and is produced and canceled in the corresponding amount of renewable energy sources during the contract period of

260301-270228

Henrik Hjelte, Säljare Göteborg Energi AB

Origin certified electricity is an addition to the customer's electricity supply agreement and means that Göteborg Energi Din El AB commits to acquire and cancel guarantees of origin on behalf of the customer, corresponding to the volume the customer has consumed during the contract period. The guarantee of origin system is standardized through the European Energy Certificate System (EECS), which regulates the trading and cancellation of guarantees of origin. An annual review is conducted as part of the environmental audit according to ISO 14001. The guarantee of origin system can be used for climate reporting according to the Greenhouse Gas Protocol (market-based, Scope 2) and CSRD. Good Environmental choice electricity meets the criteria of the Swedish Society for Nature Conservation, aiming to reduce the impact on climate and nature, Göteborg Energi Din El AB license number is 5-2022-0041-6.
